SUMMARY

Computer Science Graduate with Front-End and Back-End knowledge specializing in C# and .NET. Earning my degree at Birmingham City University and interning for a start-up company using these specified languages, I have applied these skills to commercial projects and paved my way into becoming a professional Junior Developer. I'm committed to continuous learning and delivering high-quality solutions.

TECHNICAL SKILLS

Languages: Progress OpenEdge, Java, .NET Core, C#, MySQL, React.js

Applications: Visual Studio, SQL Server Management Studio, Microsoft Azure, Postman

EXPERIENCE

Graduate Software Developer as a Full-Time Employee **Syscom PLC**

12th August 2025– present
Kingswinford, DY6 7YA

As part of my role as a Graduate Software Developer, I handled support tickets and change requests from our project managers to develop new functionality for their internal ERP system. Responsibilities included debugging application logic on new and existing features and investigating data discrepancies within database tables.

Key Accomplishments:

- Learning Progress OpenEdge ABL (Advanced Business Language) within a few weeks to develop and maintain the internal ERP system
- Implemented database schema changes with the assistance of senior developers
- Working alongside other developers to assist in development for customer related projects

Software Engineer as a Part-Time Employee **WorkUp**

30th April 2024– August 2025
Birmingham, B4 7RQ

As part of my role as a Software Engineer, I would be creating new features within the WorkUp Application. It would differ from front-end tasks using ASP.NET Core/JavaScript and back-end tasks using C# or working with RESTful APIs/Controller classes. All tasks would be done using Visual Studio, where I would be deploying these features within my own branch using Microsoft Azure.

Key Accomplishments:

- Designed and implemented new user interface components
- Maintained robust RESTful APIs and used .NET 8 Authentication
- Managing branching strategies using source control and performing code reviews

Sales Assistant as a Part-Time Employee
House of Fraser

Dec 2022– present
Wolverhampton, WV1 3NN

As part of my role as a Sales Assistant, I would be interacting with customers and assisting with customer enquiries in any way possible. I would keep our in-store items up to standard and serve our customers at our cash till.

Key Accomplishments:

- Keeping up with Great Customer service, which has been said by numerous customers
- Being Trusted by Managers in Helping Train New Employees Within The Company
- Participating in the Quarterly Annual Inventory Stock Take within the store

EDUCATION

Boot Camp Certificate: University of Birmingham, Nov-21 - Jun-22

A 24-week intensive program focused on gaining technical programming skills in HTML5, CSS3, Javascript, JQuery, Bootstrap, Firebase, Node Js, MySQL, MongoDB, Express, Handelbars.js, and ReactJS.

Bachelors of Science in Computer Science: Birmingham City University – Graduated June 2024 with a 2:1 Class Degree.
